Subject: Application Regarding Correction of Bank Account Details for Loan Disbursement.

Respected Principal,

I am writing to bring to your attention a critical issue concerning the disbursement of my student loan for the current academic year.

My loan was approved, but the recent payment transaction was cancelled. Upon inquiry, I was informed that the cancellation occurred because the bank account number provided for the payment was different from the account number that was verified and is on record with the loan department.

Therefore, I kindly request your assistance in directing the accounts department to update my information in their records and re-initiate the payment process for my loan at the earliest.

Thank you for your understanding and support.

Yours sincerely,

Aman Kumar
